

MURPHY DEMING
COLLEGE OF
HEALTH SCIENCES

Welcome to the Doctor of Occupational Therapy Program at Murphy Deming College of Health Sciences at Mary Baldwin University! I am delighted that you have chosen our program to prepare you for occupational therapy practice, and I look forward to working with you over the next three years.

A pivotal component to occupational therapy education is clinical education. During your time in the program, I will collaborate with you to establish fieldwork opportunities that align with your interests and strengths. You will engage in three Level 1 Fieldwork rotations and two full-time Level 2 Fieldwork experiences. These experiences are designed to complement what you have learned in the classroom and propel you toward becoming the kind of OT you want to be.

In order to participate in clinical education experiences, **you must complete and submit Health Forms A-E** during the admissions process. If you have questions about any of these forms, please contact the Mary Baldwin University Health Center at 540-887-7095.

This summer, we will begin a series of fieldwork meetings to familiarize you with the fieldwork timeline and process. You will then have an opportunity to share your areas of interest and prioritize your fieldwork preferences from a list of available sites.

I am excited to support you on your occupational therapy education journey, and I look forward to seeing you on campus!

Dr. Emily Budd
Director of Clinical Education
OTD Program, Murphy Deming College of Health Sciences | Mary Baldwin University
